PREFABRICATED MOSAIC SWIMMING POOLS & WHIRLPOOLS

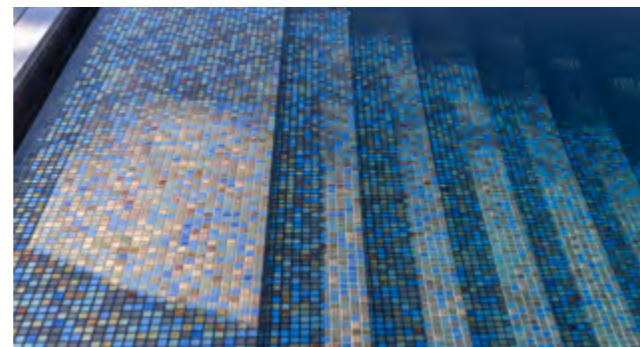

RivieraPool[®]
PREFABRICATED SWIMMING POOLS • WHIRLPOOLS

The fascination of mosaics ...

Glass mosaic is one of the most elegant and long-lasting finishes in modern pool design. Its unique appeal lies in its versatility and vivid aesthetics. Vibrant colours and light reflections give every pool a special ambiance. Mosaic stands for individuality and artistic expression.

We have used mosaic surfaces for decades in our pool collections — premium

mosaics from Ezarri or exclusive creations by world-renowned Italian brand Sicis. Whether for luxurious spas, private pools or large-scale wellness areas, glass mosaics offer nearendless possibilities. The extensive color range even allows for custom ornaments and artistic designs to be created.

The Glass Mosaic Line from RivieraPool ...

This concept defines our approach to the modern prefabricated pool: clean, smart design with everything a contemporary pool needs. Fully customized to your wishes and entirely built in-house using advanced technology.

This example shows a simple yet elegant pool in front of a pool house. The living room offers a clear, uninterrupted view through to the pool and garden.

Measuring 8.00 x 3.50 meters, this pool is finished with Ezarri mosaic. The fine tiling and reflected light on the surface create a natural effect within a modern design.

The pool shell is formed from multilayered epoxy acrylate reinforced with fiberglass. The mosaic is laid on epoxy adhesive and grouted precisely. This results in a seamless, durable surface with slight flexibility —

ideal for transporting fully tiled pools over long distances. MLine delivers outstanding structural strength, long-term durability, and easy maintenance.

Right: Tiled with Ezarri glass mosaic (Iridescent/Ebano Collection).

MLine RivieraPool

Perfect poolside living – limitless possibilities ...

Do you want your terrace to appear floating just above the water? A skimmer pool with high water level achieves this effect. Or would you like your terrace and pool to merge seamlessly like a mirror? Then a concealed overflow or infinity edge pool is ideal.

Prefer a multi-level look with water flowing over terraces, blending into the landscape?

Bathing means relaxing. You let go of stress, unwind, and recharge in contact with the water. And all this — right in your own pool.

Explore your options. Be inspired.

MLine PrimaPool

Magical play of light – night and day ...

A beautiful ambiance enhances every moment. Underwater spotlights provide soft, indirect light and create a unique mood. Relax in your MLine pool, even on cooler days. Enjoy the warmth, the massaging jets, and the elegant glow of shimmering mosaic tiles.

Do you prefer natural stone? Or do you love the glamour of glass mosaic?

With today's wide choice of colours and textures, anything is possible.

www.ezarri.com

Pool shown: Ezarri glass mosaic (Cocktail/Alexander Collection).

ezarri

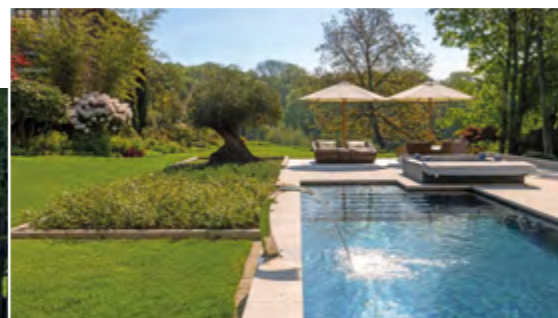

MLine Riviera Pool

Infinity channel: The view into the horizon ...

Classic design that stands the test of time. A wide "Palace" step system spans one end of the pool, with a roller shutter niche opposite. The clean geometry, paired with shimmering Ezarri mosaics, gives the pool a timeless, modern appearance.

A light stone terrace brings out the pool's color and depth. Ezarri's "Ebano" mosaic adds contrast and visual richness. The

water appears darker, deeper — like a mountain lake. Across from the steps, the elegant infinity edge adds sophistication. Delivered fully tiled and assembled, the pool includes all jets, nozzles, and lighting. This is the modern definition of a ready-made, custom-built pool.

Features: High water level, Ezarri mosaic (Iridescent/Ebano Collection), infinity edge, massage bench and WetLounge.

MLine RivieraPool

Top-class living space – Your indoor pool

Outdoor or indoor pool - with MLine, the choice is yours! A very special wellness oasis – embedded straight into the floor. A reflective surface that mirrors the spaciousness of the indoor pool. An atmosphere that invites you to relax: Taking quiet laps through a smooth water surface. Or sit in the sauna with a view of the pool ... With an Mline pool, your indoor wellness area becomes your island of relaxation.

Make your wellness dreams come true! Regular swimming benefits your body and is a health-promoting measure on its own. Sport in the water is the best therapy! If you're done relaxing, try our counter-current unit. Various jets create a unique swimming experience. Counter-swimming equipment maintains your fitness and gets your body into shape.

Mosaic pool with "Palace" steps, tiled with Ezarri glass mosaic (Iridescent/Ebano collection).

These elements are combined in a stylish way and adapted to your wishes.

MLine

Design, Functionality and Quality ...

MLine pools offer a unique high water level and combine long-lasting quality with energy efficiency and pure bathing enjoyment.

The base is a high-grade fiberglass shell that is personalized through mosaic tiling. Reflective mosaic surfaces are part of a refined swimming culture — enhancing not only athletic training but also mental relaxation.

Our mosaics come in various collections, offering many creative options. The design features clean lines and balanced proportions. The raised water level integrates harmoniously into the landscape.

SICIS

Pure Individuality ...

This is the essence of a wellness space created with Sicis. Pool and room flow into one complete work of art. Seamless transitions, flowing lines, and your personal style — perfectly realized.

We use this approach to design private spas and public wellness areas alike. Whether small or spacious — always unique and customized. MLine and Sicis: a perfect match. Let yourself be inspired.

Choose your style...

The MLine system

SYSTEM OPTIONS

Our MLine concept offers full flexibility within a modular prefabricated system. Choose your preferred step design, roller shutter system, shape and size — plus skimmer or overflow edge detail.

All elements are defined in a planning meeting on-site. Your pool is then produced and fully equipped in our factory.

Lighting, counter-current units, massage systems, bubble jets — every detail is up to you. If you have special requests for shape or function, we'll explore the limits of custom production.

We bring your vision to life.

1 WALL CONSTRUCTION

The MLine structure starts with a 60 mm insulated core offering excellent thermal resistance. It is coated with multiple layers of fiberglass-reinforced epoxy acrylate — providing chemical resistance, strength and flexibility. The same material is used in aerospace, yacht and wind turbine construction. Mosaic is applied with epoxy adhesive and grouted, forming a flexible, inseparable bond that withstands transport and climate shifts.

2 SHELL ELEMENTS

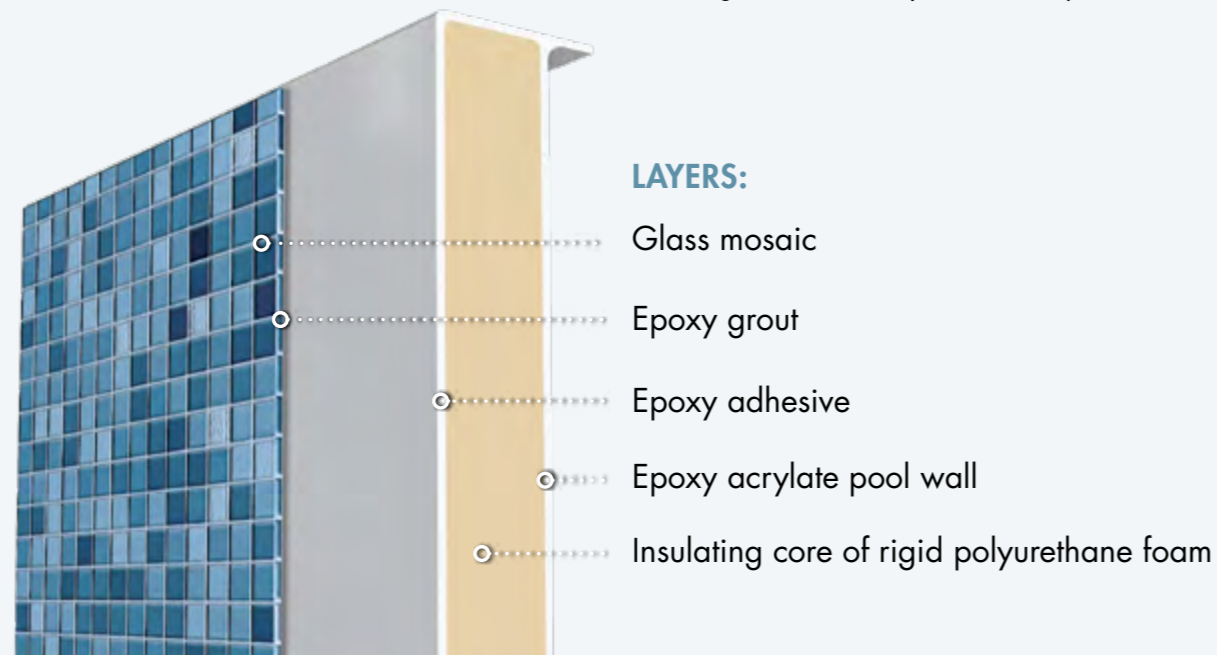

Pool panels are custom-manufactured to the required size and joined to form the pool shell. Special molded parts are available for stairs, roller shutters, and overflow channels.

3 ASSEMBLED SHELL

Panels are reinforced again after assembly to seal the joints permanently and form a monolithic shell.

4 MOSAIC APPLICATION

Glass mosaic is applied, with fittings integrated seamlessly into the tile pattern.

PLANNING ADVANTAGES

- Precise angles ideal for mosaic tiling.
- Wide range of modular components.
- Standard parts like lounge zones available customized.
- Over 50 years of pool-building experience.

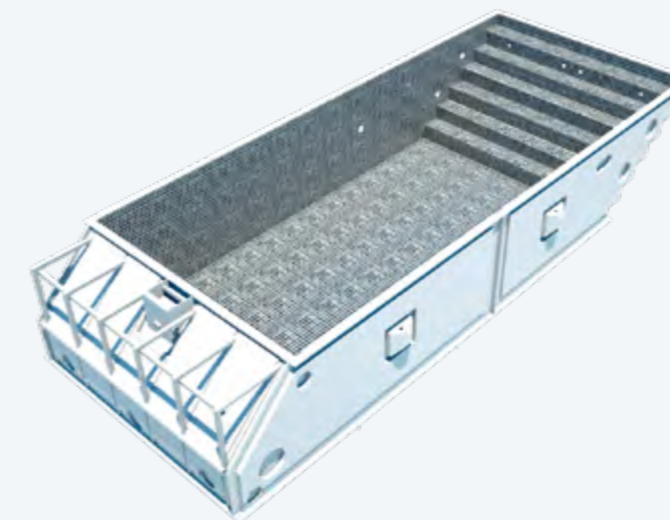

MANUFACTURING ADVANTAGES

- Pools are fully prefabricated in our factory.
- Sizes up to 5 x 15 m can be delivered in one piece.

- Short production times.
- Site work like trenching and tech prep can start early.

OUR PROMISE

- We know every detail of your pool and guarantee a long-lasting appearance and function.

MLine
MLine

The MLine system

TRANSPORT AND INSTALLATION

Your fully tiled mosaic pool is delivered by special transport. A crane, organized by your pool dealer, lowers the pool into the pre-prepared excavation. It rests on a foundation slab and is backfilled with lean concrete as the water fills.

For indoor pools, a self-supporting structure is set on the base slab. Installation of equipment and technology happens in parallel. Your RivieraPool is ready in just days.

EFFICIENT & SAFE

MLine pools are highly energy-efficient. The PU-core insulation in walls and floor (Thermoblock design) keeps heat inside. Few traditional pools match this insulation quality.

The solar cover provides additional heat and blocks sunlight to reduce algae. An optional safety ledge prevents the cover from sinking under weight and ensures secure closure.

ROBUST & DURABLE

Made from fiberglass-reinforced epoxy acrylate — like wind turbines and aircraft — RivieraPools offer top-level stability and chemical resistance.

WARRANTY COVERAGE:

- 20 years on on water tightness of the fiberglass pool shell
- 10 years on delamination/blistering
- 5 years on fittings/pipes/tile finish
- 2 years on electrical parts (pumps, motors, heaters etc.)

A 20-year warranty on water tightness of the fiberglass pool shell.

Applies across the European Union to every private first-time buyer of a RivieraPool prefabricated swimming pool.

Member of AVK-TV – German Association for Reinforced Plastics

Aktives Mitglied in der Arbeitsgemeinschaft Verstärkte Kunststoffe - Technische Vereinigung e.V. (AVK-TV)

Infinite Variety of Equipment ...

TURBINE SYSTEMS:
 - EVASTREAM MAX & PRO
 - COMFORTJET

Turbine-driven counter-current systems create a wide, even water stream — ideal for endurance swimming. Their compact design, easy operation and high aesthetic appeal make EVAstream and Comfortjet perfect for performance and relaxation.

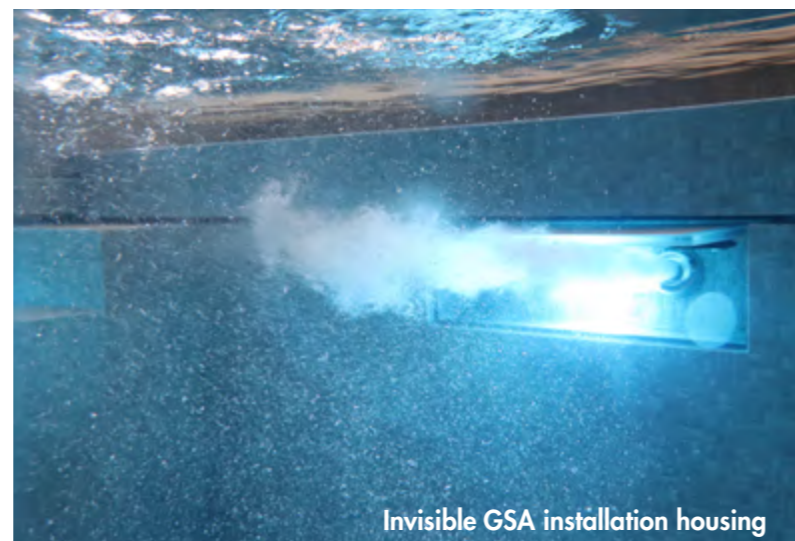

COUNTER CURRENT SYSTEMS TWINJET & TRIJET

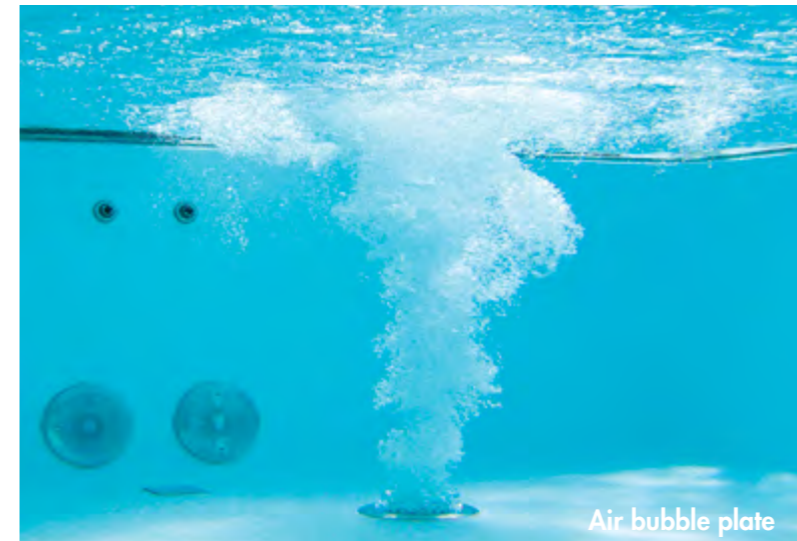

RivieraPool developed its first counter-current systems in the 1980s. These powerful, reliable jet units remain industry benchmarks.

Whether Twinjet (dual jets) or Trijet (triple jets) — both systems allow strong swimming against a water stream.

For MLine pools, we offer a hidden version: The invisible built-in housing combines form and function. Covered in mosaic and framed by illuminated acrylic glass, the system becomes visible only when active — rising smoothly when switched on.

Invisible GSA installation housing

Air bubble plate

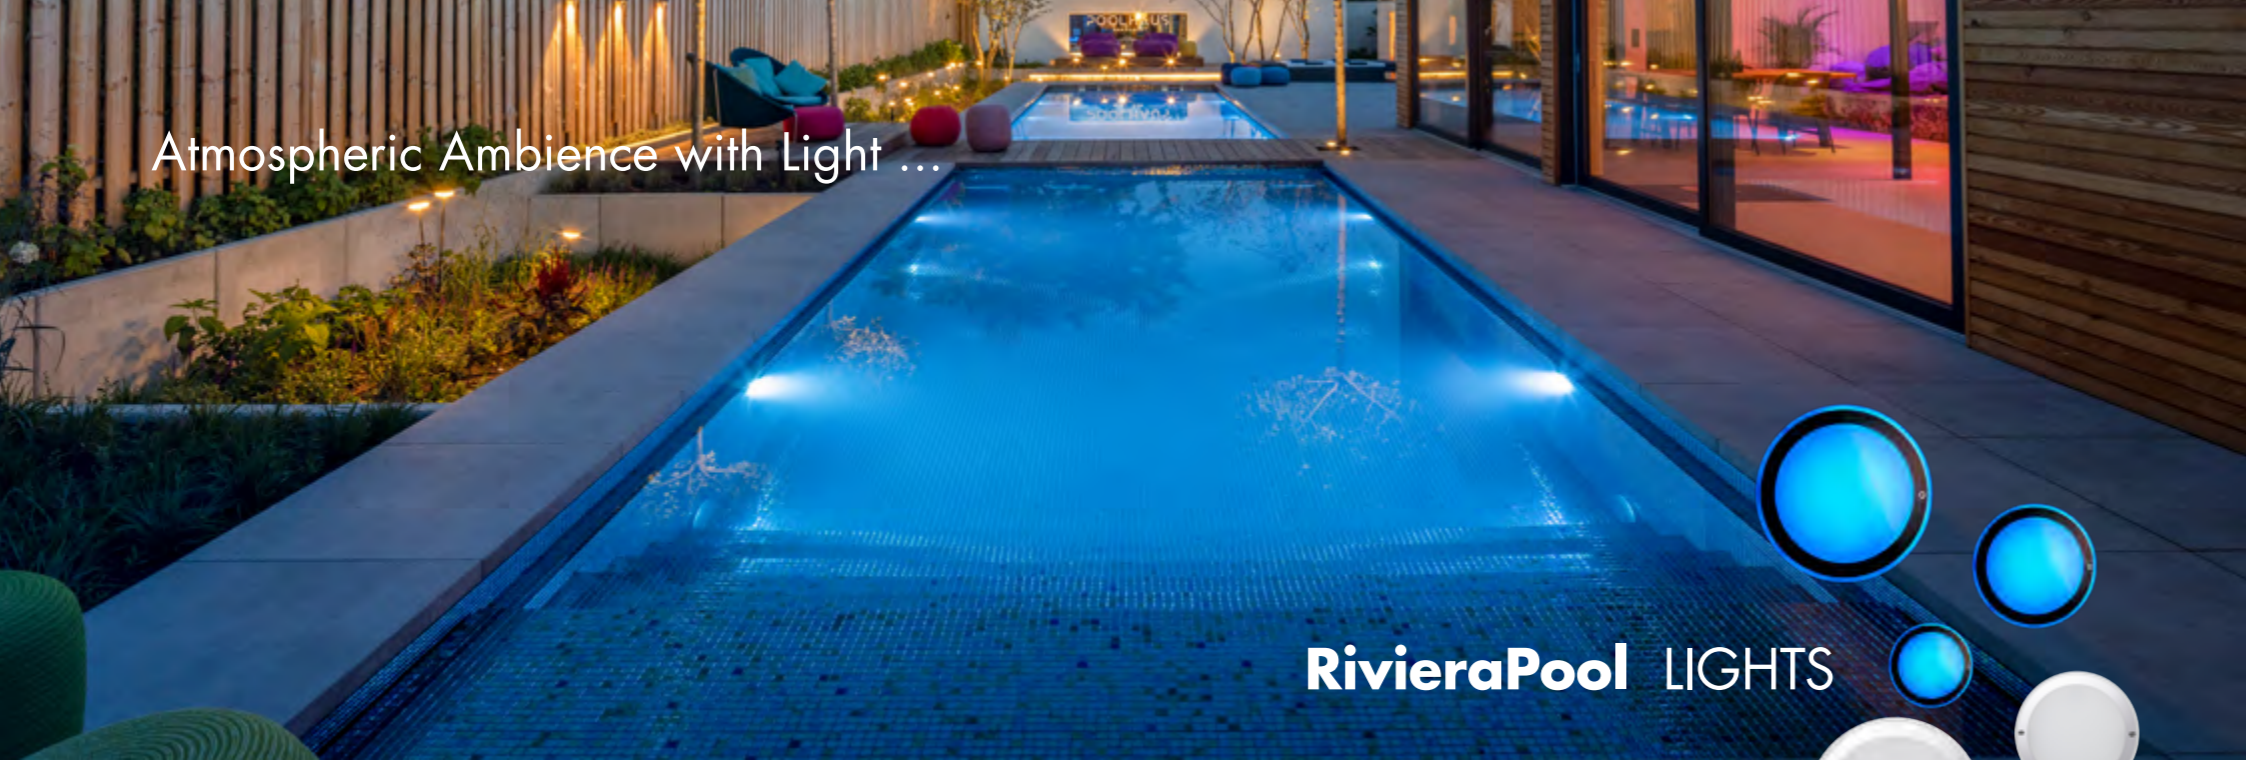

Air bubble bench

Healthstream

WATER ATTRACTIONS

Enhance your pool with massage or bubble features. All systems are integrated directly into stairs, seats, side walls or the floor — customized to your wishes.

Atmospheric Ambience with Light ...

RivieraPool LIGHTS

INVISIBLE LIGHTS

Discreet and elegant — our Invisible Lights are integrated below the roller shutter. When the cover is closed, soft indirect lighting continues to gently illuminate the water.

Experience a pool that glows — without ever seeing the light source.

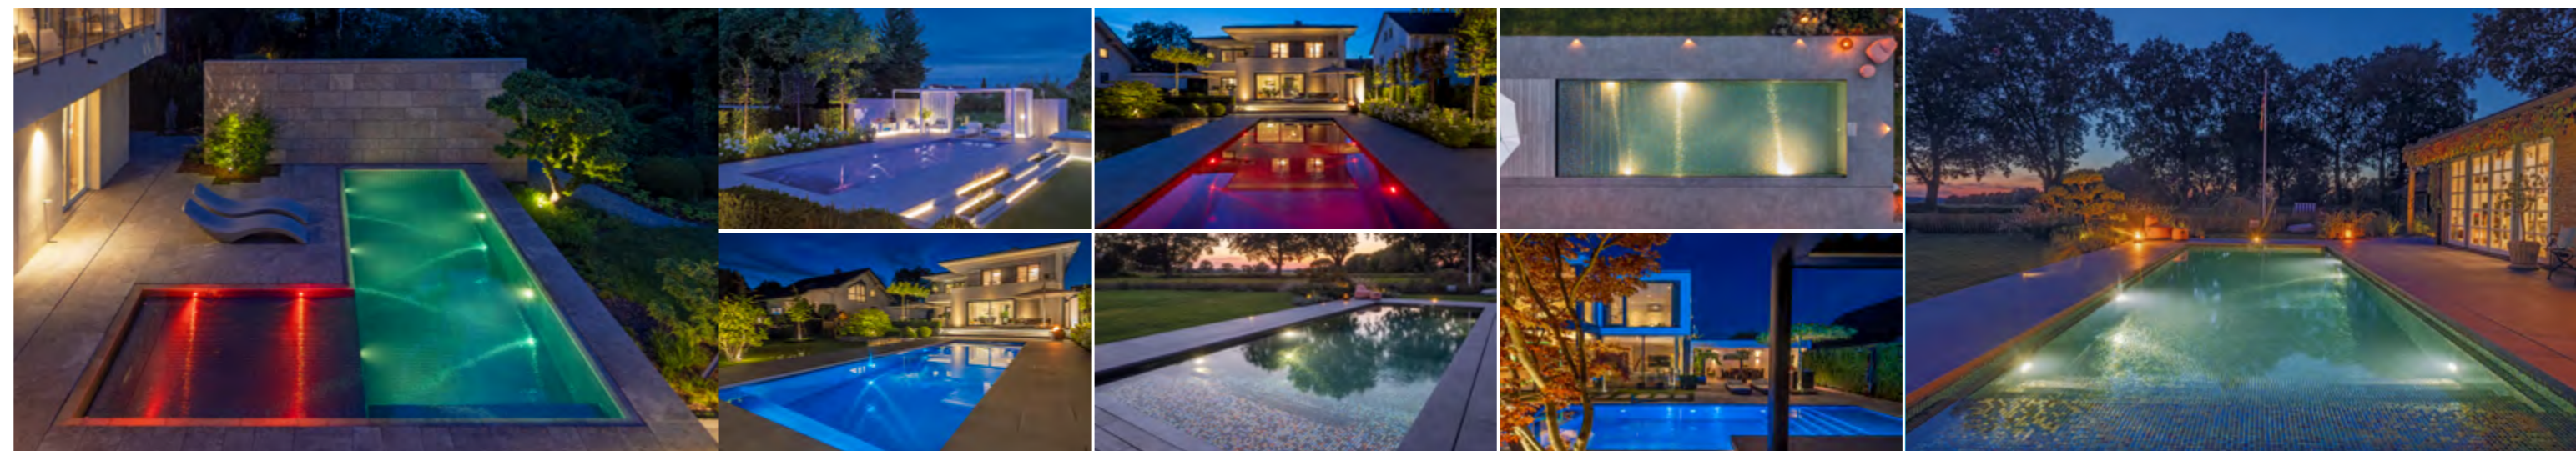

LIGHTING

Lighting plays a key role in setting the mood of your pool area. Warm underwater light enhances the water's appeal and reflects gently onto nearby surfaces—walls, trees or pergolas—creating a magical, immersive scene.

Targeted lighting can highlight pool zones. Step lights produce dramatic light and shadow effects. Illuminated water from an inlet nozzle brings movement to life. Color lighting adds variety. Choose from warm white LEDs or multi-color

lighting effects. Use a remote control to set your preferred mood. Underwater lighting increases safety and enhances visibility. Subtle spotlights by the stairs make entry and exit easy — any time of day.

The lighting along the roller shutter ledge creates a truly unique look. Light has emotional power— and nothing is more inviting than a beautifully illuminated pool at night.

MLine Spas - As Individual as You Are ...

Looking for a whirlpool with tailor-made dimensions? Our new MLine spa system offers total flexibility:

Available in skimmer or overflow versions, with or without integrated roller cover. Every MLine spa includes fully equipped technology and features.

You define the size — we deliver your personalized spa. Simply provide a sketch with dimensions, choose a mosaic from

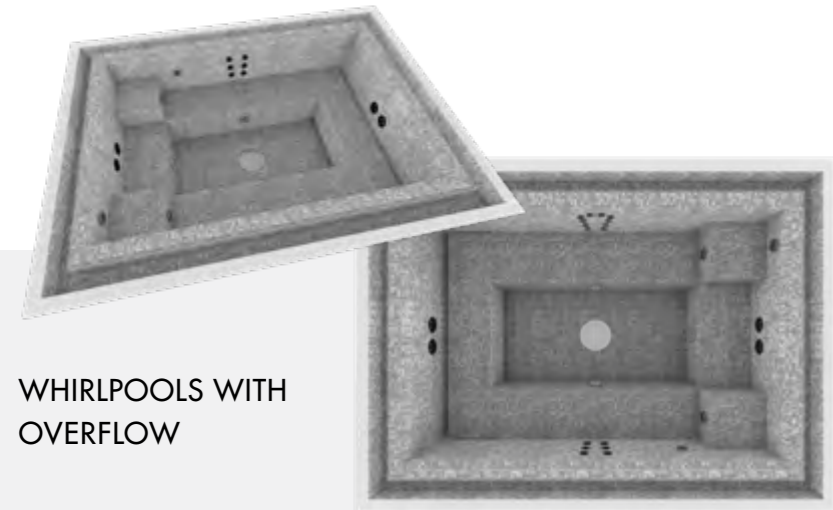

Ezarri or Sicis, and we will send you a drawing and quote. Relax with a wide range of massage and air bubble functions. Enjoy the daily luxury of a custom-designed spa.

Handcrafted, well-engineered, and delivered with precision — every spa is unique.

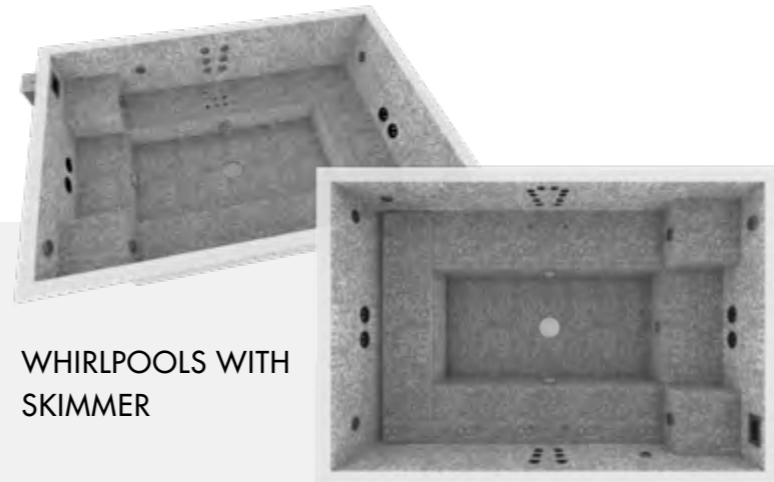

Match your spa to your pool: Use the same mosaic for spa, shower or steam room — for a fully coordinated design.

Wellness at the Highest Level

The elegant design of MLine swimming pools and whirlpools creates a sophisticated wellness atmosphere where luxury meets relaxation.

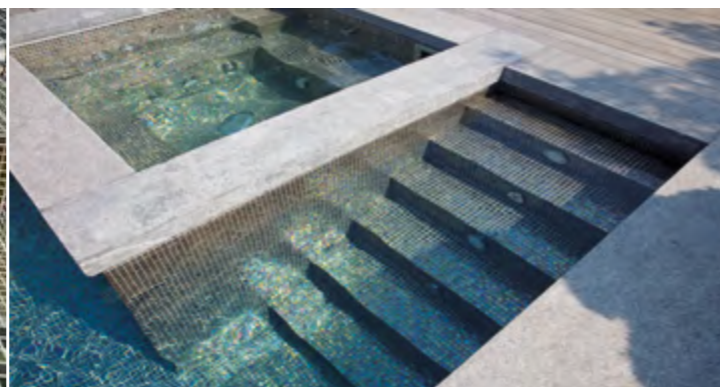

Glass mosaic adds a timeless look to both pool and spa. A wide selection of massage and air bubble features provides well-being at the touch of a button. Design and function merge into a personal retreat. From gently bubbling air jets in the whirlpool to refreshing laps in the pool — the combination offers the perfect balance

for every moment. Thanks to the wide variety of mosaic options, each spa area becomes a unique oasis tailored to your vision. From shimmering surfaces to natural colour tones, every concept can be individually realized.

MLine RivieraPool

Air bubble jets ensure pure relaxation. They deliver a gentle massage effect while also creating a revitalizing atmosphere. Embedded in elegant mosaic, they combine comfort and visual appeal.

Individual Surfaces

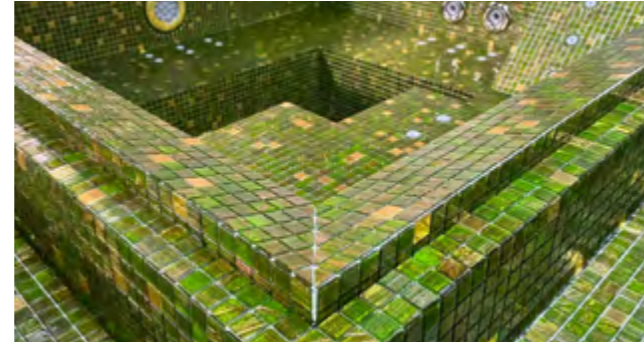

CUSTOM SURFACE FINISHES

Your pool is as individual as you are. That's why we also offer custom surface materials in addition to glass mosaic.

Would you prefer porcelain stoneware? Natural stone? No problem. We work with selected partners to deliver your desired surface in the best possible quality. Even highly specialized projects, such

as a whirlpool lined with natural stone for 20 people, have been successfully implemented — like this one in a Berlin wellness center. Explore outstanding design and comfort at the highest level.

Whether it's tiles, stone or mosaic — we turn your ideas into reality, supported by our experienced professional network.

Unique examples of surface design in a class of its own. Are you looking for design and comfort at the highest level? Anything is possible - challenge us.

Whether porcelain stoneware or natural stone together with our experienced network of professionals, we will turn your individual wishes into reality.

Unlimited Design Possibilities with Glass Mosaic

www.ezarri.com

EXCLUSIVE MOSAIC SURFACES

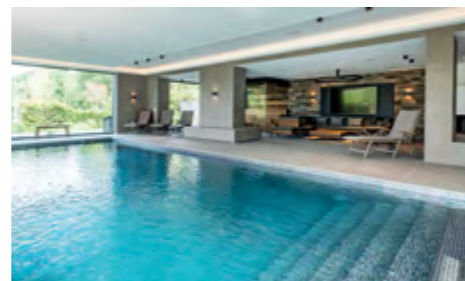

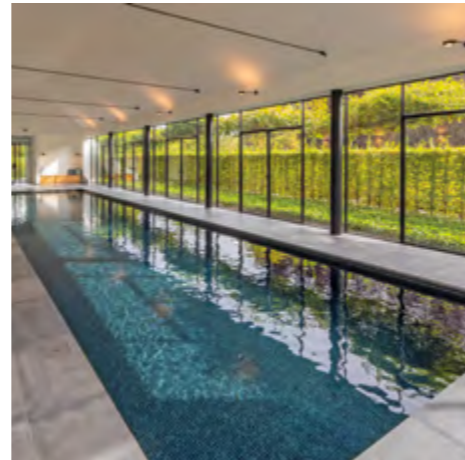

Glass mosaic is one of the most durable and luxurious materials for pool surfaces. Each small tile reflects light in a unique way — creating different color effects depending on the viewing angle and light conditions.

This variety produces a vibrant water surface and enhances the entire pool environment.

Choose from five mosaic collections by Ezarri, one of Europe's leading mosaic manufacturers. These tiles are extremely robust, easy to install, and available in countless designs.

Whether you go for the stone-like ZEN series or prefer reflective options like Iridescent, Metal, Space or Cocktail, the results are stunning.

Upon request, we're happy to work with your own chosen mosaic — if it meets our technical standards.

CRAFTSMANSHIP IN THE SPA AREA

The Italian mosaic manufacturer SICIS is globally known for its artistic excellence. Based in Ravenna, Northern Italy, SICIS creates its own glass mosaics using raw materials from the region, processed in in-house furnaces.

With a palette of around 1,000 colours and a wide variety of shapes, the design options are virtually limitless. SICIS stands for mosaic craftsmanship at the highest level.

To help guide your selection, we've curated a collection of 84 colours from the Murano Smalto, Iridium and Natural lines. In addition, 18 exclusive colour blends have been developed in collaboration with RivieraPool. Looking for something beyond this? We can offer additional colours and collections on request.

With SICIS, your design dreams become reality.

84 exclusive colours are available from the following collections:

- *Murano Smalto*
- *Iridium*
- *Natural*

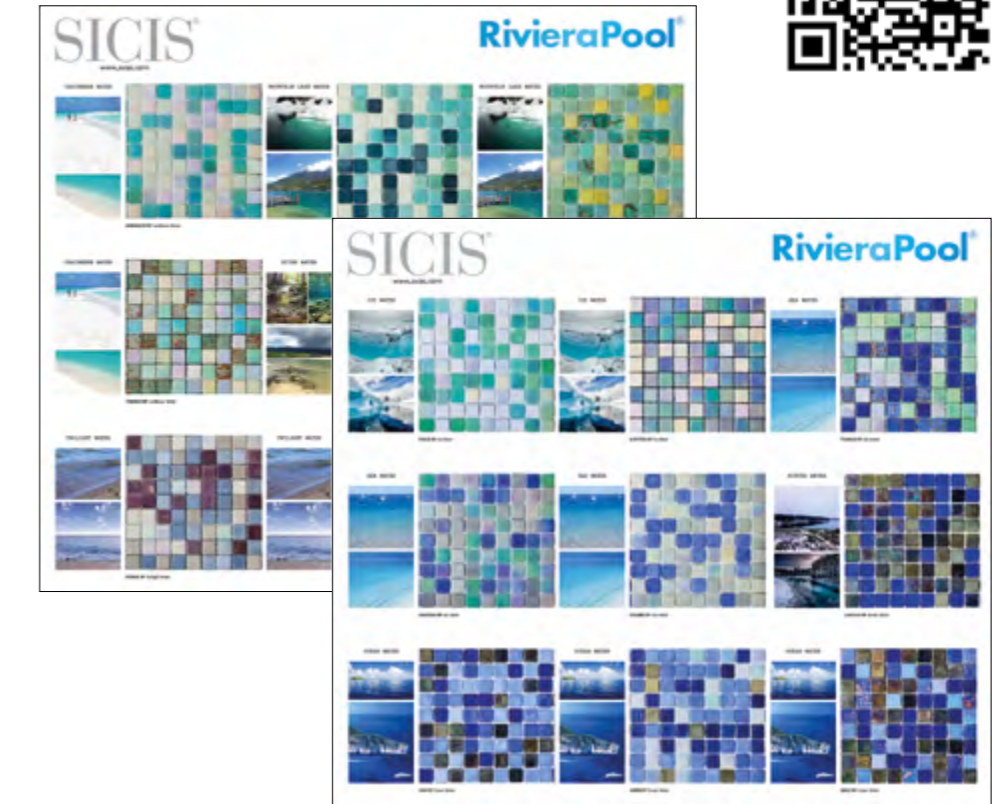

Mosaic format: 25 x 25 mm

Other colours and collections are available upon request (subject to surcharge).

Planning Your Wellness Area

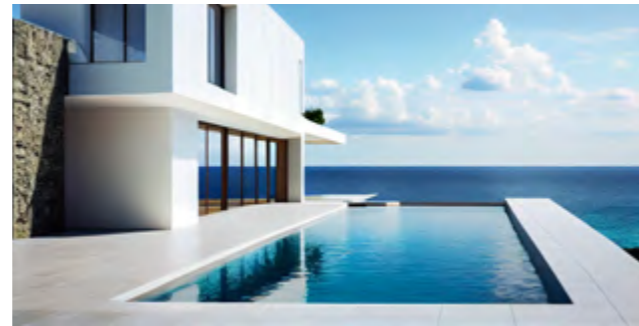

GET INVOLVED IN THE PROCESS

The best way to turn your dream into reality is through professional planning. This ensures that every detail is thoughtfully addressed — especially those you'll value most later on.

We'll create a technical drawing with all features of your future pool. This plan is ideal for budgeting, layout decisions and detailed architectural coordination. Your architect will receive the drawing in the

required digital format. Start by collecting ideas: floor plans, feature zones, sauna, whirlpool or lounge areas — everything is possible.

Create a first concept to discuss with your planner. With the right tools, your indoor or outdoor pool can be visualized early in the process.

With the layout of your garden or spa area, we'll create design renderings including materials and lighting effects. Even a sketch or mood board can be helpful. Ask your planner about these visualization options.

Plan Your Dreams with Us ...
