

OUR PRODUCT RANGE

RivieraPool[®]
PREFABRICATED SWIMMING POOLS • WHIRLPOOLS

Why RivieraPool?

DESIGN

All RivieraPool products are characterised by clear lines, clear structures, and many design details. Without disruptive technical elements, our products are always the focus and give a lot of freedom for individual integration into your planning, whether for building projects or your own private wellness oasis.

Various extensions make your pool more than just a basin full of water. An infinity channel provides a wide panoramic view, a WetLounge creates a seating and lounging

area for your outdoor furniture, unique light and colour reflections through the use of glass mosaic, everything that makes your pool the highlight of the garden ...

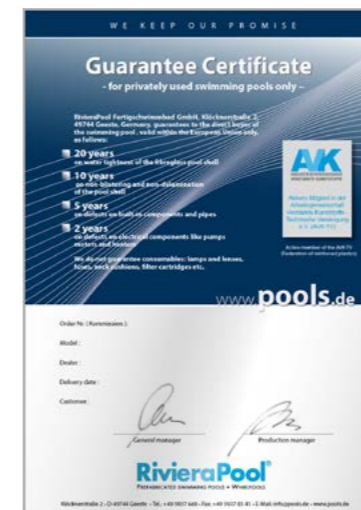

These extensions can be used for all prefabricated pools and minipools.

Please visit our website for additional information and examples.

QUALITY

Since 1964 we have only used the highest quality materials for our products. Through decades of experience paired with consistent quality management, we ensure that you receive a product that gives you many years of pleasure. We have the highest quality standards - we grant extensive guarantee commitments.

FUNCTIONALITY

When you purchase an automobile, you expect the manufacturer to have taken the time to explore every aspect of safety, low operating costs, longevity and driving pleasure. After all, it is a product that has been perfected and laboured over to create a universally loved experience that everyone can agree on. This is exactly what you can expect from your RivieraPool.

We have the years of experience and organisational commitment to deliver a swimming pool that features stylish design, robust construction, superior quality, outstanding functionality, and unsurpassed beauty that will endure for decades. Manufactured in the factory, installed in your garden and ready to use in a few days.

INFINITY POOLS

... FOR A PANORAMIC VIEW

MOSAIC TILES FROM EZARRI

STONE COVERED OVERFLOW CHANNEL

Prefabricated mosaic pools

Design, quality, and functionality in perfection, our key performance in our MLine series.

Tailor made, exactly as needed, individually equipped with a wide variety of optional equipment according to your wishes and finally tiled with a mosaic of your choice. The MLine series fulfills all your needs. Whether a 20-meter swimming channel, a classic swimming pool with dimensions according to your specifications or a bespoke whirlpool. Whether skimmer or overflow pool. Modern lighting concepts, acrylic glass panels, high-quality massage and counter-current systems, relaxation and lounging areas ... the possibilities are almost unlimited. We manufacture your dream pool individually and

deliver the complete swimming pool in one piece - ready-made, including all its built-in parts and already covered with mosaic from our factory. Our professional partner companies take care of the installation on site - quickly, smoothly, and perfectly.

CSIDE
POOLS

Neither a swimming pool nor
a whirlpool... simply a CSIDE pool.

CSIDE pools are neither whirlpools nor swimming pools, and yet they unite elements of both. Like the large prefabricated pools from RivieraPool, CSIDE pools are made of epoxy acrylate and include optional whirlpool and massage functions. Due to their compact size, they are particularly designed for terraces, small gardens, or even roof terraces: as an AquaLounge for floating and relaxing, as a design element that brings the radiance of shallow water into gardens or as a water playground for children.

Minipools – compact and
creative

CSIDE 21
DIMENSIONS 210 cm x 210 cm x 80 cm
CAPACITY APPROX. 1.900 Litres
WEIGHT APPROX. 150 kg

PORTABLE SPAS

"ANTHRACITE LITE" STRATO 2.1

216 x 216 x 92 cm

"BEIGE ELEGANCE"

THE NEW GENERATION

The Strato 2.1 and the new Strato 2.4 whirlpool with 5 seats – portable whirlpools with the maximum of contemporary design.

The elegant, modern, and linear design promotes this pool series to a highlight of your bathroom. The convenient central entry steps, the smart jet equipment and the sophisticated massage areas ensure pure wellness.

These pools are sensational wherever you place them, whether indoor or in the garden, as they use high-quality aluminium panels and have a patented hardtop cover. We use an extremely high-quality white

sanitary acrylic so that the water appears fresh and blue. The pool cladding is available in three colours and two different options: from the highly elegant matt white to anthracite to warm beige. You choose between the sporty "Lite version" with white corner elements or you choose the "Elegance version" – for an elegant and chic design.

We reserve the right to make any changes and improvements during production according to our technological processes or further developments without prior notice.

New!

STRATO 2.4 236 x 236 x 92 cm

SQUARED DESIGN

STRATO 2.0

194 x 194 x 80 cm

INGROUND SPAS - Strato 2.0 and the larger model Strato 2.3. These two spas stand for a modern and linear design.

Massage seats with different jets and an additional massage lounge provide a full-body air jet massage that transfers oxygen to your blood. Strong, rotating back jets get your circulation going and strengthen your muscles. Soft, generous neck pillows are extremely comfortable.

Pure wellness ... Installed inside or outside, in summer and winter.

RIVIERA COMMERCIAL SPAS

RIVIERA PUBLIC AND COMMERCIAL SPAS - Our commercial inground spas and are perfectly designed to be integrated with your specific project.

These models are particularly designed for commercial situations.

Manufactured according to DIN and "Made in Germany", they fulfil all European standards, perfect for an installation in hotels, fitness centres, and on cruise ships. The high water level of these whirlpools

makes them an excellent choice in private and public wellness areas. The pools offer a large range of water massage systems and air massage systems.

For more than 20 years, the Meyer Shipyard in Papenburg has trusted the quality of RivieraPool. Many cruise ships are equipped with our whirlpools.

STRATO 2.3 226 x 226 x 85 cm

THE ICE CUBE DESIGN PLUNGE POOL

Contemporary, puristic design

The "IceCube" is a special kind of eye-catcher. With the help of an acrylic overflow edge, the pool looks like an ice cube. Blue LED lighting, in conjunction with sparkling air, creates a unique piece of art in the wellness area. The overflow channel with the transparent overflow gutter is illuminated. Squared and reduced design - the new cold plunge pool

perfectly matches contemporary sauna landscapes. Five steps lead into the water, and the stainless steel handrail takes the sauna guest safely into the water. The underwater lighting ensures a beautiful ambience and also ensures safety at every step.

Straightforward and puristic: Cold Dip "IceCube", the new plunge pool, matches perfectly into modern sauna landscapes.

Please visit our website or have a look in our brochures for additional information and examples.

RENGERS GROUP OF COMPANIES

Company Founders
Gisela and Josef Rengers

Proud to be a family-owned and operated company, RivieraPool has established itself as being one of the leading manufacturers of prefabricated swimming pools and whirlpools throughout Europe. Today, RivieraPool products can be found in private bathing gardens and indoor swimming pools throughout the world, including in hotels and on cruise ships, as well as in municipal leisure pools in hundreds of communities.

The enthusiasm for pools has been the driving force of our medium-sized family-owned company for over 50 years. Our experience and innovative strength result

One company, three generations

in comfort, stylish design and sophisticated technology. The RivieraPool® brand also stands for the aesthetics of the entire pool landscape. We provide our customers with comprehensive advice from pool planning to installation. We work closely with architects, garden planners and our local partners and ProPartners.

The Rengers Group of companies includes three companies founded in Germany and Slovakia. With a total of 200 employees, The Rengers Group of Companies include Rengers Kunststoffverarbeitung GmbH, which is responsible for all production, and RivieraPool Fertigschwimmbad

GmbH, which is responsible for the sale and support of all products. The manufacturing plant in Trnava in Slovakia produces high-quality products for the markets in Western and Eastern Europe. In our innovative 1,900 square meter exhibition and showroom located in Geeste-Dalum, RivieraPool displays our cutting-edge swimming pools, sauna plunge pools, and whirlpools featuring a variety of different options, and our Europe-wide sales network of certified partners and specialist dealers guarantees superior customer service, expert advice, and on-site assembly.
